Engagement

Engagement deadline

6 August 2025

Engagement process description

1. Background Leicestershire Partnership NHS Trust are planning to procure a contract to support the monitoring and maintenance of our chlorine dioxide Water Dosing Units based at our Coalville, Beacon and Loughborough sites, this includes but is not limited to: • Maintenance of on-site Chlorine Dioxide Generator IWS XZIOX ALS System in connection with the RS20 control and monitoring unit. • Training LPT staff in monitoring and operation of the generator. • Monthly service of the generator and controls, monthly report of CLO₂ levels and temperatures. • Chemicals delivery, refill of system and disposal of empty containers • Remote monitoring and reactions to generator alarms. 2. Purpose of the Engagement - Understand market capabilities and innovations - Identify potential delivery models - Inform the scope and specification of the future tender 3. How to Participate Please express your interest by emailing Victoria.hunt34@nhs.net by 6th August 2025 along with answers to the below questions. 4. Information Required - Is this a service you can provide? - Do you currently provide this service to any other NHS Trusts? - How will you monitor the Water Dosing Unit? - What would you recommend regarding maintenance intervals? - Are spare parts readily available and locally sourced to you? - Do you have any recommendations / ideas regarding Water Dosing Unit maintenance and monitoring that we may not have considered?
