### **Scope**

### **Reference**

DS/OV/2025

### **Description**

Hull City Council is conducting a Preliminary Market Engagement (PME) for the Supply & Installation of Road Markings. PME allows local authorities and other contracting authorities in the public sector, to engage with a market. PME is designed to encourage the commercial and voluntary sectors to engage with the development process before a procurement is undertaken. This is the market's opportunity to express its views, outline market developments and generally influence how solutions to the Authority's' needs might be met. PME is not a call for competition. Following PME, the authority may conclude that procurement is not the best solution to meet a particular strategy outcome. It is essential that any organisation participating in the PME understands that a procurement opportunity is not guaranteed. It is therefore essential that organisations understand that this activity does not affect an organisation's positioning either positively or negatively should a procurement opportunity arise subsequently. The Tender

opportunity is anticipated to be publish within August 2025. The tender process will be an open tender. The Authority proposes to enter into a contract for a period of 3 Years with the successful Supplier. An extension of a further 1 year will be available on this contract. The anticipated value of the Service is approximately £200,000 per annum.
