Tender

## **CEFAS25-25 Contract for provision of intertidal Remotely Piloted Aircraft (RPA) flights for Hinkley Point C Nuclear New Build project**

CENTRE FOR ENVIRONMENT, FISHERIES AND AQUACULTURE SCIENCE

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-042338

Procurement identifier (OCID): ocds-h6vhtk-05065b ([view related notices](#))

Published 23 July 2025, 12:31pm

### **Scope**

### **Description**

The BEEMS (British EDF Estuarine and Marine Studies) programme is funded by NNB Generation Company (HPC) Limited. Through this programme, Cefas provide authoritative scientific information on the marine and transitional waters in the vicinity of potential new build nuclear power stations. Cefas require a supplier to conduct intertidal Remotely Piloted Aircraft (RPA) flights, in accordance with the Civil Aviation Authority (CAA) guidelines, to monitor potential coastal change and intertidal algal coverage for the Hinkley Point C (HPC) Nuclear New Build project to meet regulatory environmental monitoring requirements. RPA flights and photography are required: (1) along the Hinkley Point foreshore, and; (2) at Combrich Wharf and the surrounding banks of the River Parrett. Flight/survey design and equipment specification must be sufficient for Cefas to create orthophotos (OPs) and Digital Surface Models (DSMs) with a Ground Sampling Distance ((GSD), i.e. resolution) of 3cm/pixel or better (exceptions are detailed in full Specification). Cefas requires that the Supplier's flight team assumes full responsibility for the comprehensive management of all aspects of each survey. This includes, but is not limited to, planning (including securing all necessary access), issuing survey notifications in advance of each flight, liaising with NNB regarding other flight operators and ensuring the safe and successful execution of every survey with delivery of data as detailed in the

Specification. The Contract will be awarded as soon as possible following notification of award, expected early September 2025, with the first Surveys due to start in October or November 2025, pending completion of all pre-survey health and safety requirements detailed above. The initial Contract period will be to 31 December 2026, with the option to extend by an additional 3 x 12-month periods, to be awarded annually, subject to funding, up to maximum end date of 31 December 2029. Please note that these extensions are not guaranteed. The total estimated budget of £625,000 (excluding VAT) covers the full potential Contract duration.

### **Total value (estimated)**

- £625,000 excluding VAT
- £750,000 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 11 September 2025 to 31 December 2026
- Possible extension to 31 December 2029
- 4 years, 3 months, 20 days

Description of possible extension:

Option to extend for 3 x further periods of 12 months each.

### **Main procurement category**

Services

### **CPV classifications**

- 79311000 - Survey services

## **Contract locations**

- UK - United Kingdom

---

## **Participation**

### **Legal and financial capacity conditions of participation**

As per Bidder Pack

### **Technical ability conditions of participation**

As per Bidder Pack

### **Particular suitability**

- Small and medium-sized enterprises (SME)
- Voluntary, community and social enterprises (VCSE)

---

## **Submission**

### **Enquiry deadline**

11 August 2025, 5:00pm

**Tender submission deadline**

18 August 2025, 12:00pm

**Submission address and any special instructions**

<https://atamis-9529.my.site.com/s/Welcome> All bids to be submitted via the above eProcurement system.

**Tenders may be submitted electronically**

Yes

**Languages that may be used for submission**

English

**Award decision date (estimated)**

29 August 2025

**Recurring procurement**

Publication date of next tender notice (estimated): 1 July 2029

---

**Award criteria**

<b>Name</b>	<b>Type</b>	<b>Weighting</b>
Technical	Quality	65.00%
Price	Price	25.00%
Social Value	Quality	10.00%

---

## **Other information**

### **Payment terms**

As per the Bidder Pack

### **Description of risks to contract performance**

Prolonged Adverse Weather Due to tidal limitations on the surveys, prolonged adverse weather could impact the ability to obtain the dataset for a specific month. This could result in additional costs and/or contract extension in order to meet the requirements. Unable to address the risk upfront as weather is beyond control of Buyer or Supplier. Proportionate mitigation for some weather risk is provided for in the Contract. Risk assigned to both parties. Change in frequency of flight requirements Due to changing schedule at Hinkey Point C (HPC), frequency of flights could change. For example, extensive deliveries to the Comwich site may result in the need for monthly surveys instead of quarterly surveys, on a short-term basis. This could result in additional costs in order to meet the requirements. Unable to address the risk upfront as neither Buyer or Supplier has control over the HPC project scheduling. Proportionate allowance within the estimated total value is provided for in the Contract. Risk assigned to Buyer.

### **Applicable trade agreements**

- Government Procurement Agreement (GPA)

### **Conflicts assessment prepared/revised**

Yes

---

## Procedure

### Procedure type

Open procedure

### Justification for not publishing a preliminary market engagement notice

This is a recurring requirement with a well known market, a Planned Procurement Notice was published to alert the market of Cefas' intention to release a tender.
