Tender

966858431 T1393 Occupational health risks in depots relating to silica dust for sanders

RSSB

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-042390

Procurement identifier (OCID): ocids-h6vhtk-0564a2

Published 23 July 2025, 2:05pm

Scope

Reference

966858431 T1393

Description

This project has two key aims:

- Improve the GB rail industry's understanding and identify appropriate mitigations to the exposure

risks associated with the creation of respirable crystalline silica (RCS) and non-crystalline (amorphous)

silica for staff when undertaking sander replenishment, maintenance and testing activities in depots,

sidings and within passenger trains that are fitted with internal sand fillers.

- Provide enhanced knowledge on how the risk of RCS and amorphous silica compares between sand

alternatives and GB rail sand

- The final outputs should be actionable, providing recommendations that directly inform industry

practices to mitigate RCS and amorphous silica risks.
