Tender

Agency Backup and Archive Solution

Medicines and Healthcare Products Regulatory Agency

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-042968

Procurement identifier (OCID): ocds-h6vhtk-051501 ([view related notices](#))

Published 24 July 2025, 5:49pm

Scope

Description

The Agency is looking for a partner who can provide a holistic strategy covering all the different types of data and applications in use across the MHRA. The Agency has data that must be highly available and easy to restore quickly, and data that is very unlikely to be needed regularly but must be retained as a historical record. Our partner and solution must be capable of handling both, and everything in between. For ease of management, the Agency would like a single pane of glass spanning all of the backup and archive arrangements. Those arrangements should be tailored to the data they support, so they can be cost effective and efficient for each scenario. MHRA is not looking for multiple solutions though, as there is a preference to consolidate technologies as far as possible. The highest scoring proposal will be one which is able to cover all data types with one or the fewest different solutions. The Agency also expects a hybrid solution that makes the most of the Cloud without a wholesale commitment to expensive storage that is environmentally unfriendly.

Total value (estimated)

- £250,000 excluding VAT

- £300,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 20 October 2025 to 20 October 2028
