CM12 - Central Monitoring and Control System

TRINITY HOUSE

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-042974

Procurement identifier (OCID): ocds-h6vhtk-0565ee

Published 24 July 2025, 7:05pm

Scope

Description

Trinity House is currently exploring and reviewing market options to upgrade and/or replace its existing Remote Control and Monitoring System (RCMS) for Aids to Navigation.

At present, we operate a Central Monitoring and Control System (CMCS), which is centrally monitored 24/7 by our Operations and Planning Centre based in Harwich. This system enables the monitoring and remote operation of marine Aids to Navigation (AtoN) across the waters of England, Wales, the Channel Islands, and Gibraltar.

Each monitored site is equipped with out-station telemetry units, which facilitate both the remote control of fixed navigational aids and the observation of their performance and reliability.

To ensure a thorough understanding of the existing system and our future requirements, Trinity House is hosting an Open Day. This event is intended for all interested parties to:

- View the current CMCS in operation
- Gain a clear understanding of both current capabilities and future needs

- Discuss potential solutions and innovations with our technical team

We welcome suppliers, developers, and other relevant stakeholders to attend and engage with us as we explore potential options.

This open day will be held to provide a high level explanation of the existing systems and will take place in Harwich on Tuesday 2nd of September 2025. This will be strictly appointment only and a Non Disclosure Agreement (NDA) will be signed. Interested suppliers should email etender@trinityhouse.co.uk to request an appointment and a copy of the Trinity House CM12 Request for Information (if not already provided).
