- 33771100 - Sanitary towels or tampons

Same for all lots

Contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Framework

Maximum number of suppliers

Unlimited

Maximum percentage fee charged to suppliers

0%

Framework operation description

The tender has been divided into two distinct Lots to reflect the differing specifications, operational models, and procurement requirements of the end users.

Lot 1 is envisaged to be a ranked agreement, with up to three (3) Suppliers awarded per Section.

Lot 2 is envisaged to be awarded to a single Supplier for the managed service provision to Primary Schools.

The Buyer may purchase items from the Framework Agreement via direct call-off or Secondary Competition throughout the Framework Term.

Further competition may be commissioned during the Framework Agreement term for additional Period Hygiene Products. Any further secondary competitions for Competed Goods will be run with all Suppliers appointed to the Framework Agreement, irrespective of the Lot they are awarded (unless otherwise excluded through poor performance). Once awarded, the Competed Goods shall form part of the Standard Goods which the successful Framework Agreement Supplier is eligible to provide under the terms of this Framework Agreement for the duration of the Framework Agreement.

The Buyer reserves the right to add or remove items from the Framework Agreement schedule at any time during the period of the Framework Agreement. The Supplier is reminded that the extent of these additions/deletions is not limited so long as they are within the scope of the Framework Agreement Lot. Further information in relation to the mechanism used is contained within the tender documents.

Award method when using the framework

Either with or without competition

Contracting authorities that may use the framework

Establishing party only

Participation

Technical ability conditions of participation

Lot 1. Supply and Delivery of Period Products

Lot 2. Fully Managed Service for Primary School Annual Provision

Description of risks to contract performance

The recent legislative expansion mandating the provision of period products to a broader range of end users—beyond pupils and students—introduces a degree of uncertainty that may impact contract performance. The extended scope potentially includes staff and visitors across participating bodies, for whom no historical usage data exists. While an additional contingency has been factored into the Framework value, actual demand levels remain difficult to forecast with precision and may exceed anticipated thresholds.

Other risks to satisfactory performance include:

Product Unavailability or Recall: There is a risk of supply chain disruptions or product recalls, particularly affecting branded items. This is mitigated through the appointment of multiple suppliers across sections within Lot 1, alongside a mechanism allowing Suppliers from the unbranded sanitary towels section (Lot 2) to deliver in the event of supplier failure or no award.

Manufacturer-Led Product Changes: Alterations to product specifications—such as pack sizes, formulations, or packaging—may affect perceived value or suitability. The Specification includes allowances for reasonable modifications where products continue to provide best value for money.

Legislative or Regulatory Shifts: Future changes to environmental, public health, or product safety legislation may necessitate updates to product requirements. The Specification has been designed to accommodate such changes without requiring separate procurement action.

Variable Uptake by Participating Bodies: Participation by bodies such as LibrariesNI remains unconfirmed. Should they onboard during the life of the Framework—subject to approval from the Education Authority—the resulting increase in demand could be substantial and is not currently reflected in contingency values. In such a scenario, a contract modification may be required to safeguard ongoing delivery.

These risks have been identified as "known unknown" risks.
