Tender

Beach Management Framework

ENVIRONMENT AGENCY

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-043272

Procurement identifier (OCID): ocds-h6vhtk-0521fc ([view related notices](#))

Published 25 July 2025, 4:36pm

Scope

Description

The Environment Agency requires a Framework to deliver its routine and ad-hoc beach maintenance works across all coastal frontages in England that it is responsible for. This maintenance typically consists of moving/transporting large volumes of shingle from areas of accretion to areas of erosion and evenly re-distributing shingle along the sea to restore/maintain the required standard of protection. There is a requirement to import marine dredged or land-based shingle onto coastal frontages to replenish lost material and to conduct maintenance/repairs to coastal defences and structures. There is a requirement to import and place rock on coastal frontages, as well as to provide coastal incident response, recovery and readiness support in the event of extreme weather events. This maintenance is essential to minimise the risk of coastal flooding to residential properties and commercial businesses. Market Engagement was undertaken using PIN notices via the PCR 15 regulations in May and December 2024. The Framework will operate as a single National Lot with a maximum of two Delivery Partners being appointed onto the Framework. The Framework duration will be a six-year (72 month) initial period with a 2-year (24 month) extension option (total eight years). The total estimated value of the Framework will be between £469,000,000 to £1,227,166,000 (exclusive of VAT). The procurement documents are available for unrestricted and full direct access, free of charge, at <https://defra-family.force.com/s/Welcome> Any questions, requests to participate, or tender submissions must be submitted electronically via this portal.

Commercial tool

Establishes a framework

Total value (estimated)

- £1,227,167,000 excluding VAT
- £1,472,600,400 including VAT

Above the relevant threshold

Contract dates (estimated)

- 11 May 2026 to 10 May 2032
- Possible extension to 10 May 2034
- 8 years

Description of possible extension:

The Framework duration will be a six-year (72 month) initial period with a 2-year (24 month) extension option (totally eight years).

Main procurement category

Works

CPV classifications

- 45200000 - Works for complete or part construction and civil engineering work

- 45244000 - Marine construction works
- 45243000 - Coastal-defence works
- 45243400 - Beach-consolidation works
- 45246400 - Flood-prevention works

Justification for framework term over 4 years

Justification for having a 4+ Framework duration: •Specialist marine vessels are in high demand globally, leading to prolonged mobilisation timeframes, this may impact the EA's ability to deliver their programme of beach nourishment work to meet their obligations under Shoreline Management Plans. • Supports key Construction Playbook policies of Portfolio & Longer-Term Contracting, Commercial Pipelines and Risk Allocation. • The EA requires an 8-year duration to facilitate the delivery of its longer term 8-year pipeline. • The majority of respondents to our second PIN agreed that an 8-year Framework is attractive to the market and encourages greater commitment from the market to invest in specialist vessels, equipment and staff. • A longer duration enables relationships to be built with long-term collaborative Delivery Partners, supporting efficient delivery through programme level optimisation and packaging of work.

Framework operation description

The Framework will operate as a standalone Framework under the Procurement Act 2023 and will not be re-opened for competition.

Award method when using the framework

Either with or without competition

Contracting authorities that may use the framework

The Framework to Others in England: • Department for Environment, Food and Rural Affairs, and its associated bodies including any Agencies and non-departmental public bodies and others (the Defra Group) in England. The Client may also require the provision of the goods/services to members of this Defra Group via the Client, rather than directly. • Local Authorities in England. • Internal Drainage Boards in England. • Central Government departments, executive agencies, and other non-departmental public bodies in England. Further information can be found within the Tender documents.
