### Scope

### Reference

T/GW086/25

### Description

SmarTeam is a Product Data Management (PDM) system, which underpins UKAEA's current Technical Document Management System (TDMS). Whilst SmarTeam is still operational, it is now classified as a legacy system by the vendor and is increasingly misaligned with UKAEA's evolving business and technical requirements. To safeguard business continuity and mitigate long-term risks, UKAEA is proactively assessing future replacement options. Deliver a Data Lifecycle Management (DLM) solution to UKAEA supporting contemporary Engineering and Scientific programmes e.g. Lithium Breeding Tritium Innovation (LIBRTI) programme. This is a market engagement exercise only and tender publishing dates and contract values are estimates at this stage and are very likely to change. Please download the documents on EU Supply and submit Appendix 1 - Submission Document by the deadline of 19/08/25.
