Description

Introduction

MOPAC will shortly be publishing an opportunity to bid for the contract to establish and run a "Victim Voice Forum" for victims from London's Black communities. This must be established and run from 2026 for two years, to inform Metropolitan Police Service (MPS) and MOPAC policy and practice on victim care for these communities.

Background

Victim satisfaction with the Metropolitan Police Service (the Met) has not been high for some time and the Casey Review highlighted that trust needs to be rebuilt with Londoners and with victims of crime. To help achieve this, the Met is reviewing how victims are

looked after when they come into contact with the police: from the first point of contact through to justice outcomes. The Met wants to provide better, more consistent victim care to rebuild lost confidence and place victims at the heart of what they do.

This can only be achieved by involving victims in the improvement process, hence we are establishing the Victim Voice Forum (VVF) programme, giving a voice to specific victim groups with low trust and confidence in the police:

Victims from London's Black communities

Victims/survivors of violence against women and girls

LGBTQ+ victims

Disabled victims

The Mayor's Office for Policing and Crime (MOPAC) would like to engage the services of a Black community organisation to establish and run the forum for victims from London's Black communities. At this event you can find out more about MOPAC's plans and ask any questions you might have about the VVF programme. This is a great opportunity to help influence Met Police victim policy and practice. Please join us for this discussion.

Scope

The provider will recruit participants to the VVF for victims from London's Black communities and provide the administration and facilitation of VVF meetings, including sourcing venues for meetings and arranging to cover the remuneration and expenses of participants.

The VVF for victims from London's Black communities should consist of 10-12 participants, from a range of backgrounds and geographical areas and with recent experiences of different types of criminal victimisation. They should have a passion to work with MOPAC and the MPS to improve victim care and increase confidence in reporting crime to the police.

The provider will also be expected to assist with agenda development and feedback capture to assist with the wider VVF programme.
