Scope

Reference

715365451 - In-Service Support of SCTS and MDGS

Description

In Service Support contract for Ships Compass Transmission (SCTS) and Meteorological Data Gathering System (MDGS) with Systems Engineering and Assessment Limited (SEA Ltd) for in-service support to and obsolescence management of Ships Compass Transmission and Meteorological Data Gathering systems fitted to Type 23 Frigates, Hunt and Sandown Classes and to Vanguard Class Submarines. These provide critical ship's compass and meteorological information to platforms' navigational and weapons systems.

Contract 1. In-Service Support of Ships Compass Transmission (SCTS) and Meteorological Data Gathering System (MDGS)

Supplier

- SYSTEMS ENGINEERING & ASSESSMENT LTD

Contract value

- £8,333,333.33 excluding VAT
- £10,000,000 including VAT

Above the relevant threshold

Earliest date the contract will be signed

31 October 2025

Contract dates (estimated)

- 3 November 2025 to 2 November 2032
- Possible extension to 2 November 2034
- 9 years

Description of possible extension:

The planned term of the contract is seven (7) years, plus two times one (+1 + 1) option year

Main procurement category

Services

Options

The right to additional purchases while the contract is valid.

MDGS currently out of scope and that could be an additional option, it's subject to customer requirement.

CPV classifications

- 50640000 - Repair and maintenance services of warships

Other information

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Direct award justification

Single supplier - technical reasons

The Command & Control, Targeting, Navigation and Communications Team, part of the United Kingdom Ministry of Defence, intends to place an In Service Support contract for Ships Compass Transmission (SCTS) and Meteorological Data Gathering System (MDGS) with Systems Engineering and Assessment Limited (SEA Ltd) for in-service support to and obsolescence management of Ships Compass Transmission and Meteorological Data Gathering systems fitted to Type 23 Frigates, Hunt and Sandown Classes and to Vanguard Class Submarines. These provide critical ship's compass and meteorological information to platforms' navigational and weapons systems.

The planned term of the contract is seven (7) years, plus two (1 + 1) option years. The total value, including options, is estimated to be £10 million inclusive of VAT.

It is considered that the award of this contract without prior publication of a tender notice is lawful in accordance with Section 41 of, and Paragraph 6 of Schedule 5 to, the Procurement Act 2023 for technical reasons.

SEA Ltd has supported the systems since 2017 and is the only supplier with the necessary detailed knowledge of the systems and their maintenance histories, and so the specific technical know-how required, to safely support the systems and manage obsolescence through to their out of service dates.
