"The Contract is for the provision of technical support to maintain a safe and secure capability and ensuring maximum operational effectiveness. The Contract will span 5 years from August 2025 through to August 2030.

The in-service MMR capability delivers a soldier-portable Beyond Line of Sight (BLOS) / Tactical Satellite and Tactical Ground-to-Air (G2A) equipment for cross-domain Environments. MMR reduces the cognitive burden and size, weight and power (SWaP) ratios on the user, and enables Joint Effects through Air-Land Integration and connectivity that provides voice and data services for Land and Maritime platforms operating at reach. The in-service MMR capability also facilitates Command and Control (C2) and Battlespace Management across Defence, and it is the only radio that enables direct NATO tactical interoperability."
