2025 0105

Description

AWS has identified the requirement for an Identity Governance and Administration (IGA) solution to enhance the management and oversight of digital identities across the business, the solution should be able to cover, 10,000 standard identities, 400 privileged identities.

While identity administration capabilities currently exist within Anglian Water, the introduction of a dedicated IGA solution represents a new and strategically important technology. This presents both challenges and opportunities in terms of implementation, integration, and long-term value delivery.

Input from the market will help shape the development approach, inform procurement strategy, and ensure that delivery models are fit for purpose.

Contract dates (estimated)

- 1 April 2026 to 31 March 2031
- 5 years

Main procurement category

Goods

CPV classifications

- 48000000 - Software package and information systems

Contract locations

- UKH - East of England

Engagement

Engagement deadline

29 August 2025

Engagement process description

Interested suppliers are invited to participate in this pre-market engagement exercise by completing a short questionnaire. The purpose of this exercise is to gather feedback from the market to help inform and shape the potential procurement strategy and scope of the upcoming framework.

All responses must be submitted via the Scanmarket Portal. To access the questionnaire, suppliers must first register on the portal (if not already registered). Once registered, participants will be able to download the engagement documents, review the outline strategy, and respond to the questions provided.

<https://esourcing.scanmarket.com/SupplierRegistration/NewSupplier?eventId=807725&ccsum=cabe229e81f5081a83689282fc1334c7>

Please note that this is a non-competitive, pre-procurement exercise, and participation does not form part of any subsequent evaluation process. However, supplier insights will play an important role in helping to refine the approach and ensure the proposed framework is commercially attractive, viable, and fit for purpose.
