Award

## **Supply and Maintenance of Static Surveillance Cameras**

Stoke on Trent City Council

UK5: Transparency notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-044190

Procurement identifier (OCID): ocds-h6vhtk-0568dc

Published 30 July 2025, 11:48am

### **Scope**

### **Reference**

HDG/2025/873

### **Description**

BSIP funding will be utilised for the supply and installation of static surveillance cameras. The cameras will be installed on additional red routes along key bus corridors in order to alleviate the problem of indiscriminate parking.

Integration into existing software requires compatibility with third party hosted software (TES Review) which is linked directly to the cameras.

---

## **Contract 1. Supply and Maintenance of Static Surveillance Cameras**

### **Suppliers**

Supplier not yet selected

### **Contract value**

- £875,000 excluding VAT
- £1,050,000 including VAT

Above the relevant threshold

### **Earliest date the contract will be signed**

12 August 2025

### **Contract dates (estimated)**

- 18 August 2025 to 17 August 2029
- 4 years

### **Main procurement category**

Goods

### **CPV classifications**

- UKJ - South East (England)
- UKK - South West (England)

---

## **Participation**

### **Particular suitability**

Small and medium-sized enterprises (SME)

---

## **Other information**

### **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

### **Procedure type**

Direct award

### **Direct award justification**

Single supplier - technical reasons

Integration into existing software requires compatibility with third party hosted software (TES Review) which is linked directly to the cameras.

Evidence packages encrypted within the cameras is then uploaded to hosted software (TES Review) and then uploaded to Taranto software for penalty processing.

TES Review is only compatible with TES cameras for direct uploads, therefore without system compatibility decryption and encryption software would have to be installed on SOTCC servers so that encrypted evidence packages can be sent for third party review.

If SOTCC were to purchase the suppliers own review software, the team would need to operate 2 or more software packages, driving up costs and inefficiencies into delivery of the service.

Taranto have confirmed they do not currently carry compatibility with any other camera provider.

As hosted solutions are the preferred choice of SOTCC, we would look to avoid any option that would require the use of our internal servers
