I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Electric/Alternative Fuel Vehicles, Charging Infrastructure & Telematics

Reference number

FA1608

II.1.2) Main CPV code

- 34144900 - Electric vehicles

II.1.3) Type of contract

Supplies

II.1.4) Short description

To meet our carbon net zero target by 2030 and keep up with market changes, we need to transition our fleet across to zero emission options, such as Electric Vehicles (EV) or Alternative Fuel Vehicles (AFV). To enable this transition of our fleet, we also need to consider the infrastructure required to keep these vehicles moving, and the systems needed to ensure our operations can continue to run smoothly with minimal impact to our customer

service and downtime.

Thames Water intends to award Framework Agreements for the provision of the vehicles,

charging infrastructure and telematics, as well as the services and support required to guide us through our decarbonisation journey. To meet our ambitious carbon net zero target and ensure a successful transition, we want to partner with a provider/s that can support us with this journey and help us achieve our goals.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.2) Description

II.2.1) Title

Electric & Alternative Fuel Vehicles

Lot No

1

II.2.2) Additional CPV code(s)

- 34113000 - 4-wheel-drive vehicles
- 34131000 - Pick-ups
- 34136000 - Vans
- 34144700 - Utility vehicles
- 34144900 - Electric vehicles

II.2.3) Place of performance

NUTS codes

- UKI - London
- UKJ - South East (England)

Main site or place of performance

Whole of Thames Water region

II.2.4) Description of the procurement

Lot 1 is for the supply of any of the following: site utility vehicles, small vans, medium vans, large vans, and 4x4s. The primary focus will be on Electric Vehicle options, but

Alternative Fuel Vehicles will be considered where EV options are limited. Suppliers will be expected to supply/deliver the vehicles with warranty included, and all vehicles will be purchased outright.

The Lot 1 framework agreement will be awarded to multiple suppliers (to ensure full coverage and multiple supply options for each vehicle type), with mini competitions then run each year/order between all the successful suppliers on the framework agreement for the different vehicle requirements.

II.2.11) Information about options

Options: Yes

Description of options

Any agreement awarded would be for an initial duration of 3 years, with options to extend annually up to a maximum overall term of 8 years.

II.2) Description

II.2.1) Title

Public Network Charge Card

Lot No

2c

II.2.2) Additional CPV code(s)

- 30163000 - Charge cards
- 31158000 - Chargers
- 34144900 - Electric vehicles

II.2.3) Place of performance

NUTS codes

- UKI - London
- UKJ - South East (England)

Main site or place of performance

Whole of the Thames Water region

II.2.4) Description of the procurement

Lot 2 focuses on supporting our requirements for appropriate charging infrastructure and solutions to enable our transition to EV/AFV and keep our new fleet moving to ensure our frontline operations can continue to deliver for our customers. Lot 2 has been split into sublots to allow us to distinguish between the different charging requirements (home, site, public).

Lot 2c is for the supply of charge cards that allow Thames Water drivers to access and use the public charging network, and managing payments for the electricity cost to charge on the public network where applicable.

Lot 2c will be awarded to a single supplier but we will consider bidders' ability to provide for multiple sublots and the benefits of this, to prioritise consistency and accountability throughout our infrastructure rollout.

II.2.11) Information about options

Options: Yes

Description of options

Any agreement awarded would be for an initial duration of 3 years, with options to extend annually up to a maximum overall term of 8 years.

II.2) Description

II.2.1) Title

Telematics

Lot No

3

II.2.2) Additional CPV code(s)

- 32441300 - Telematics system
- 34144900 - Electric vehicles
- 42961000 - Command and control system
- 64226000 - Telematics services

II.2.3) Place of performance

NUTS codes

- UKI - London
- UKJ - South East (England)

Main site or place of performance

Whole of Thames Water region

II.2.4) Description of the procurement

Lot 3 focuses on supporting our requirement for an appropriate telematics solution to maximise the efficiency and effective management of our fleet to ensure our frontline operations can continue to deliver for our customers. The scope of this lot includes the supply, installation, maintenance and management of a telematics solution to pull together all required data/insights i.e. vehicle utilisation, vehicle charge level/mileage range, when it's on charge, visibility of available site/public chargers. The supplier will be expected to provide solution interconnectivity between vehicle and charging data, as well as providing support

and recommendations to improve the efficiency of our fleet and operations. Lot 3 will be awarded to a single supplier to ensure we have one overall view of our fleet and associated data, and facilitate integration with our operational planning team.

II.2.11) Information about options

Options: Yes

Description of options

Any agreement awarded would be for an initial duration of 3 years, with options to extend annually up to a maximum overall term of 8 years.

Section IV. Procedure

IV.1) Description
