Lot constraints

Description of how multiple lots may be awarded:

Bidders are allowed to bid for all LOTs. All Request to Participate submissions will be evaluated and following number of suppliers will be taken through to the next stage: Lot 1 - Structures Inspections - 5 suppliers Lot 2 - Road Condition Monitoring - 5 suppliers Lot 3 - General Engineering -10 suppliers Lot 4 - Flood Management - 5 suppliers. Maximum number of suppliers appointable will be: Lot 1 - Structures Inspections - 1 supplier Lot 2 - Road Condition Monitoring - 1 supplier Lot 3 - General Engineering -5 suppliers Lot 4 - Flood Management - 5 suppliers.

Lot 1.0 (was 1). Lot 1 - Structures Inspections

Description

LOT 1 - The Consultant will plan and carry out general and principal inspections of the Client's structures, using the existing inspection schedule. The Consultant will also deliver special inspections as needed. All inspections will follow relevant industry and professional standards. Reports from all inspections will be uploaded to the Client's bridge management system. The Consultant will estimate the costs of any works recommended arising from inspections, and prioritise these into high, medium and low priority. Any

design work arising from the various inspections will be offered to the Consultant on a first-refusal basis as part of this Lot.

Lot value (estimated)

- £33,000,000 excluding VAT
- £39,600,000 including VAT

Framework lot values may be shared with other lots

Same for all lots

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Lot 4 (was LOT 4). Lot 4 - Flood Management

Description

LOT4 - The Consultant will provide flood management services to the Client in its capacity as lead local flood authority. These services, which will be awarded by the Client on an as-needed basis, include: Preparing strategic documents such as local flood risk management strategy Assisting with funding bids, when required Preparing flood alleviation feasibility studies Maintaining a flood risk asset register Delivering flood risk modelling and interpretation Assisting with various tasks across the planning space related to flood management including pre-app advice and assessing both minor and major planning applications

Lot value (estimated)

- £132,000,000 excluding VAT

- £158,400,000 including VAT

Framework lot values may be shared with other lots

Same for all lots

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.

Lot 2 (was LOT2). Lot 2 - Road Condition Monitoring

Description

LOT 2 - The Consultant will carry out annual inspections of the Client's footways and carriageways and provide condition ratings, using 2024 data as a baseline. All surveys will follow relevant industry and professional standards. The Consultant will use the results to inform annual and four-year programmes for structural maintenance. The Consultant will also develop a highways infrastructure asset management strategy under this Lot to help the Client plan and prioritise future works.

Lot value (estimated)

- £33,000,000 excluding VAT
- £39,600,000 including VAT

Framework lot values may be shared with other lots

Same for all lots

CPV classifications, contract locations and contract dates are shown in the Scope section, because they are the same for all lots.
