CPU7757

Description

The Service is to carry out Fire Risk Assessments on social housing properties managed by Nottingham City Council's Housing Services Building Safety Team.

The Contractor will conduct monthly Fire Risk Assessments (FRAs) across 312 sites, including high-rise, mid-rise and low-rise blocks. The assessments will help us identify potential fire hazards, evaluate the effectiveness of existing fire safety measures, and develop strategies to mitigate identified risks.

The Contractor will carry out Type 1 FRAs-this is the most common and non-destructive type. It assesses the common areas of a building, such as lobbies and corridors, but does not include individual dwellings. The Contractor will be identifying fire hazards, evaluating risks, and providing actionable recommendations to ensure compliance with fire safety regulations and enhance the safety of our tenants. This includes supporting the requirements of the Building Safety Act 2022, particularly the duty to manage building

safety risks and maintain accurate, accessible safety records.

Total value (estimated)

- £735,000 excluding VAT
- £882,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 October 2025 to 30 September 2028
- 3 years

Options

The right to additional purchases while the contract is valid.

Depending on the outcomes of the Type 1 assessments the Client may request the Consultant to undertake Type 2, 3, or 4 Fire Risk Assessments to the properties.
