Description

Hull City Council (The Authority) is seeking tenders from interested organisations for the Engineering & Regeneration Professional Services Framework. The Authority is developing an Open Framework which will consist of a range of Suppliers and specialisms to provide Engineering and Regeneration Professional Services. The tender is an open tender procedure consisting of one stage process. The contract is anticipated to commence 1st February 2026 ending by 31st January 2033. Further information regarding opening and closing of Frameworks is contained within Tender documentation (ITT Part 1) and will comply with Chapter 4, Section 49 of the Procurement Act 2023. The Authority has estimated the value of the Services to be approximately £11,500,000.00 per annum. The estimated value is given in good faith to assist tenderers in making their submissions, it should not be interpreted as an undertaking to purchase any goods, services or works to any particular value by the Authority and does not form part of the Contract. The Framework will be divided into following Lots: Lot 1a - Bridges

and Structures Planned Programme Delivery. Lot 1b - Bridges and Structures General Professional Services. Lot 1c - Complex Bridges Lot 2 - Highways and Civil Engineering. Lot 3a - Building Construction. Lot 3b - Housing Strategy and Appraisal Services. Lot 4a - Economic and Financial Modelling. Lot 4b - Valuation and Benchmarking Works. Lot 5 - Quantitative and Qualitative Project Output Analysis. Lot 6 - Heritage and Conservation. Lot 7 - Multi-disciplinary Team and Project Delivery (Bridges, Highways and Civil Engineering and Building Construction). Lot 8 - Decarbonisation of Council Buildings and Land - Site assessment and Feasibility. Further information is contained within the tender documentation. Please ensure all tender submission documents are completed as detailed. Incomplete bids will be eliminated from further process.
