Description

Deliver Phase 4 of the Riverine Natural Capital Condition and Ecosystem Mapping project, a long-term multi-phase research and development project to develop national freshwater natural capital condition and ecosystem service mapping, the user need for which was identified through the Natural Capital Mapping Needs Review. This Phase 4 contract with Natural Capital Solutions will provide specific scientific and technical expertise and capacity to finish scaling up the prototype mapping they developed in previous phases into a complete national map explorer with England-wide coverage, ready for publication.
