RFA1593

Description

Aneurin Bevan University Health Board is looking for a cost-effective Simulated Phishing Tool that is scalable to a large organisation and that offers realistic, customizable, and engaging training.

Essential features include ease of integration with existing Microsoft products M365 and Active Directory and allow automated campaign deployment, integrated training modules, and robust reporting and analytics.

The product must provide a wide range of up-to-date customisable phishing templates, real world scenarios and the ability to tailor scenarios.

Provide comprehensive reporting to include detailed reports performance tracking and

data driven insights to target high risk users and departments.

The product must provide automated campaign deployment and interactive training modules to target failed simulations and offer multi language support.

The vendor must provide technical support and training for the product.

ABUHB will hold supplier demonstration days September 2025 as a soft market exercise. ABUHB will look to invite 6 suppliers at random for a supplier demonstration of their solution.

Total value (estimated)

- £1 excluding VAT
- £1 including VAT

Below the relevant threshold
