Scope

Description

This project requires the supply and installation of new play equipment (ages up to 18 years) including play area surfacing. The Council will, where possible, retain any existing viable play equipment. The principal focus of the new play equipment is imagination and inclusivity, providing play items for the up to 18-year-old age group.

The Council is seeking a play area which incorporates imagination, challenge and excitement for the target age group, and as such the proposed list of play equipment items set out below is a broad indication of the Councils and communities' vision. The list of play equipment items is intentionally generic by description, allowing Contractors to use their innovation and experience from within their own organisations and product ranges.

The Council is content with a range of materials to be used but primarily including, HPL and steel. The Council would seek to see the use of sustainable or environmentally friendly products which are durable in nature.

The successful bidder must supply and lay safety surfacing to meet safety standards (BS EN1177). Colours shall be in all instances complimentary of the local environment. This applies to the surfacing also, but black is acceptable for surfacing.

Contractors are encouraged to consider a range of play values and disciplines and make

clear within the submission, the play value for each individual item of equipment. The playscape should incorporate the widest array of possible activities to stimulate both the physical and social growth of users.

The list of play equipment items to be considered must include:

25-30m Cableway

Pendulum Rope Swing

Roundabout/Spinner

Cone Twister/Rota Web

Monkey Bars/Horizontal Ladder

Somersault/Rollover Bars

Meeting Shelter (open sided for 6-8 people)

Picnic Bench - 4 person (Marmax type material)

Spring See-saw (u-8s)

Flymobile/sky carousel

Spin-a-bounce/hip-hop/carousel

Surf-rider/flexus

replacement basketball goal with backboard.

A 'Ninja warrior' style fitness trail incorporating:

Solar stopwatch board

Stepping trail (5-6 step)

Tunnel

Climbing slope

Slanted steps (3-4)

Jumping gauge

finishing 'warrior' ramp

A pathway from the entrance gate to the existing fenced u-8 area and picnic bench.

All site prelims, ground works and safety surfaces appropriate to the installation.

Independent Installation Inspection

Freight

A budget maximum of £103,000 is set with funding in place.

Inclusivity and Imagination

Inclusivity and imagination are important elements of this project. Contractors are encouraged to consider items of play equipment that are inclusive for all and promote imagination, inquisitiveness and curiosity in the children. Consideration of natural woodland shapes, colours, materials, range of equipment, ease and assistance for access are features the Council is seeking to include. Connectivity within the play space is an essential feature, enabling people with impaired mobility or those in wheelchairs and with pushchairs to manoeuvre within the play space.

Presentation

The Council requires the Contractors proposals to be set out on a scaled drawing showing the layout of each item of equipment, entrances and connecting paths. The layout plans should itemise each item of equipment on an accompanying 'key'. The Contractor may submit 3D visual drawings showing the play area layout on the site. The Contractor is encouraged to visit the site to appreciate the slope and gradient. The Contractor should show within its price the cost for the removal, supply and installation of any surfacing.

Warranties and Guarantees

The Council is seeking a play area which is durable, vandal resistant where possible and provides quality and reliability going forward. The Contractor shall provide evidence of the warranties, guarantees and spares list for each item of equipment, the surfacing and the individual materials used within the play space.
