Lot 2. Providing access to a digital weight management programme with access to 50 minutes of individual coaching per Service User.

Lot 3. Providing access to a digital weight management programme with access to 100 minutes of individual coaching per Service User, specific tailoring of the service for identified groups experiencing health inequalities and do not routinely engage with weight management programmes.

The NHS Digital Weight Management Programme will deliver a behavioural lifestyle intervention to service users living with obesity over a 12-week (84 days) period. The service will be expected to deliver specific key elements, which will include:

? Dietary/nutritional advice and content consistent Government Dietary requirements [England] published guidelines.

? Physical activity advice and content in line with Chief Medical Officer [England]} Physical Activity Guidelines.

? Programme delivered by a recognised behaviour change methodology to support weight management and adoption of a healthy lifestyle.

? Reporting on Service User (patients) progress to include:

- weight recordings
- engagement with weight management content
- physical activity engagement
- coaching engagement *

*Where applicable for Lot 2 & 3.
