Award

## **Plasma and Fuel Cycle Interface Modelling Enhancement and Data Integration**

UK INDUSTRIAL FUSION SOLUTIONS LTD

UK5: Transparency notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-046547

Procurement identifier (OCID): ocds-h6vhtk-058288

Published 6 August 2025, 2:05pm

### **Scope**

### **Reference**

PP-UKIFS-040

### **Description**

The contract aims to improve plasma and fuel cycle interface modelling by incorporating plasma requirements, expanding interface complexity, and integrating various plasma modes and states. It also seeks to enhance the Design Structure Method (DSM) for modelling plasma control interfaces, with a focus on the plasma-fuel cycle interface.

## **Contract 1**

### **Supplier**

- TSM Engineering

### **Contract value**

- £150,000 excluding VAT
- £180,000 including VAT

Above the relevant threshold

### **Earliest date the contract will be signed**

18 August 2025

### **Contract dates (estimated)**

- 19 August 2025 to 2 August 2026
- 11 months, 15 days

### **Main procurement category**

Services

## **CPV classifications**

- 71350000 - Engineering-related scientific and technical services
- 71356000 - Technical services
- 73100000 - Research and experimental development services
- 73110000 - Research services

---

## **Other information**

### **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

### **Procedure type**

Direct award

### **Direct award justification**

Additional or repeat goods, services or works - extension or partial replacement

The proposed direct award is justified due to the need to build on highly specialised DSM work previously conducted for the STEP plasma control systems. This next phase extends the same methods to the fuel cycle plasma interface, requiring continuity of technical knowledge. Additionally, the work enhances outputs from the original contract, refining plasma modelling interfaces and integrating them into STEP's executive data

systems infrastructure developed by the same supplier.
