## Scope

#### Reference

P-32071

## **Description**

A reprocurement of Defra's existing valuation services framework is expected to be launched in early August with a view to establish an eight year open framework series. The valuation services framework will seek the appointment of a range of professionals who can value: livestock, crops and assets. The purpose of these valuations is to support APHA to control the spread of endemic and exotic diseases such as bovine TB and bird flu. The valuations under this framework will enable APHA, Welsh Government and Scottish Government to pay compensation to the owners of stock, crops or assets when we humanely cull or destroy crops to control the spread of diseases. The resulting framework is to be open for use by: Defra, APHA, Welsh Government & Scottish Government.
