C5863

Description

Reactive maintenance works are those that comprise of day to day emergency repairs together with short term items to rectify immediate problems e.g. repair to a toilet. The works could potentially be required across the West Midlands region, which is split into the following areas: Birmingham North and South, Black Country North and South and Coventry and Solihull. West Midlands Fire and Rescue Authority has thirty-eight fire stations across the region, a HQ building located in Birmingham, Transport Engineering Workshops in Perry Barr and the Command Development Centre in Smethwick, a full schedule of properties is listed at Appendix 5 (site address list).

The work will be split into the following lots:

Lot 1: Building Works

Lot 2: Electrical Works

Lot 3: Plumbing works

Lot 4: Drainage

Lot 5: Roofing works

Tenderers are invited to bid for all or any of the available Lots. It is the preference of the Authority that all the above Lots will be awarded to three suppliers per Lot.

Framework

Maximum number of suppliers

15

Maximum percentage fee charged to suppliers

0%

Framework operation description

Reactive works call-off orders would be awarded to the three successful Suppliers on a rotational basis. With each supplier receiving the same amount of purchase orders throughout the term of the contract. The Authority will do this in order of the faults being received on the fault monitoring system by the Facilities Management department.

Award method when using the framework

Without competition

Contracting authorities that may use the framework

Establishing party only
