Asbestos Risk Management System

NETWORK RAIL INFRASTRUCTURE LIMITED

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-047461

Procurement identifier (OCID): ocids-h6vhtk-055d35

Published 10 August 2025, 6:58pm

Changes to notice

This notice has been edited. The [previous version](#) is still available.

This Preliminary Market Engagement notice has been updated to include additional CPV codes. These have been added to more accurately reflect the scope of the intended procurement and to ensure the notice reaches all relevant market participants. No other changes have been made to the content of the notice.

Once you have reviewed all the documents, please complete the questionnaire using the link provided in the Preliminary Market Engagement Briefing Pack, titled "ARMS preliminary market engagement notice briefing pack.

Please be advised that the deadline for submitting your responses to the questionnaire has been extended to Friday, 5 September 2025.

You may also access the questionnaire via the link provided below:

Scope

Description

Network Rail (NR) is seeking to partner with a supplier to deliver a modernised Asbestos Risk Management solution. This initiative forms part of NR's broader drive to digitise asset management processes and ensure full compliance with asbestos-related legislation.

The current Asbestos Risks Management System (ARMS) database holds only survey reports and lacks true register functionality. This results in fragmented, out-of-date data and limited integration with other NR systems. NR is looking to procure a full end-to-end system, as existing platforms do not cover those areas. The focus is on a purpose-built SaaS solution to manage asbestos registers, risk assessments, remediation workflows, and reporting in a single, integrated environment.

Total value (estimated)

- £2,000,000 excluding VAT
- £2,400,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 30 October 2025 to 30 October 2026
- 1 year, 1 day
