Description

BlueLight Commercial are looking to implement a Framework for the delivery of Media Digitisation Services. This will include the conversion of analogue media to digital records including meta data for integration with a Digital Evidence Management system.

Tender Documentation is scheduled to be published on 11th August and no documentation will be available before this date.

The Framework will include 3 lots which are:

Lot 1: Inhouse VHS Media Digitisation - This lot is for the provision of software, hardware and training to enable a Police Force to convert VHS tapes to digital files.

Lot 2: Outsourced VHS Media Digitisation: This lot is for the provision of conversion services delivered completely by a third party with electronic files being returned securely to the customer Force.

Lot 3: Niche Media Digitisation: This lot is for the conversion of other forms of media, i.e. microfiche, CD, DVD's to an electronic file for ingestion by a Digital Evidence Management solution.

Framework operation description

Customers of the Framework will be able to perform a mini-competition or direct award

under the required lots based on the rate card included within a suppliers bid. A customer can compete under 1, 2 or all 3 lots for the services they require. Due to the exact delivery methodology of the services, economies of scale etc. a mini-competition allows for best value to be determined by the customer for their specific requirements.
