Description

JISC (Joint Information Systems Committee) is a UK-based not-for-profit organisation that provides digital solutions for education and research. It supports higher education institutions by offering a range of services, including digital infrastructure, cyber security, data analytics, and digital content licensing. The JISC membership permits Bournemouth University access to the JANET network - the UK's National Research and Education Network, providing high-speed internet and secure connectivity essential for academic and research activities. It also offers cyber security, advice and guidance resources, and negotiations and licensing groups, which have enabled Bournemouth University to purchase other products and services at a discount.
