The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

This contract was a call-off contract awarded following a further competition under Lot 1 of the CCS RM1043.8 Digital Outcomes 6 Framework.

The contract was previously modified to increase the value by £625,000 (50% of the original awarded value) as per VEAT notice 2024/S 000-030912 and a further modification to increase the value by £625,000 (50% of the original awarded value) as per VEAT notice 2025/S 000-005665.

The contract has now been modified as per VEAT notice 2025/S 000-005665 to increase the value by up to a further £625,000 i.e. 50% of the original awarded contract value. The new total contract value is now £3,125,000.

The modification was completed in accordance with both Regulation 72 (1)(b) and 72 (1)(c) and meets all of the following conditions:

(b) for additional works, services or supplies by the original contractor that have become necessary and were not included in the initial procurement, where a change of contractor—

(i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, services or installations procured under the initial procurement, or

(ii) would cause significant inconvenience or substantial duplication of costs for the

contracting authority, provided that any increase in price does not exceed 50% of the value of the original contract;

(c) where all of the following conditions are fulfilled:—

(i) the need for modification has been brought about by circumstances which a diligent contracting authority could not have foreseen;

(ii) the modification does not alter the overall nature of the contract;

(iii) any increase in price does not exceed 50% of the value of the original contract or framework agreement.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

This modification meets these conditions as the additional services must continue to be technically compatible with what has already been developed by the Contractor under this contract and to change contractor at this point would cause significant inconvenience and a substantial duplication of costs to procure replacement services.

The need for this modification was also brought about by circumstances which a diligent contracting authority could not have foreseen. Particularly it could not have been foreseen that significant funding would be re-allocated to allow the further development of this platform.

The overall nature of the contract is not altered, and the value of this modification (£625k) also does not exceed 50% of the original contract value (£1.25m).

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £2,500,000

Total contract value after the modifications

Value excluding VAT: £3,125,000
