Description

This is a Framework opportunity for OFSTED registered Residential providers to support the D2N2 collaborative in the delivery of Good and Outstanding quality, stable and local placements to our Children in Care.

Background D2N2 Children in Care Framework is a collaboration between the following Councils: Derby City Council; Derbyshire County Council; Nottingham City Council and Nottinghamshire County Council, for the provision of Residential placements across the D2N2 boundary. D2N2 is working together to optimise the commissioning of placement provision for their children in care.

This is subject to governance approvals within each local Council

The Councils have worked together over the last decade on the provision of residential

placements for Children in Care. Through this work it was recognised that there were shared challenges, gaps in provision and common needs amongst the collective Children in Care population, and the need of a combined approach and closer coordination across our area.

Current number of Looked After Children and Young People 0-18 supported in Ofsted registered Childrens Homes is 427

Framework operation description

The framework covers a broad range of placements. For avoidance of doubt, the scope of the framework covers all types of Childrens Home placements.

At time of tender, all providers will submit a maximum costing for each category in which they can provide services for. This maximum costing must be below the published maximum weekly price in order to fulfil the requirements.

Providers shall be required to confirm prices for the services as part of the referral/offer process. At time of offer of an individual placement, the provider can offer below their maximum weekly costing submitted at time of tender, but not exceed this.

Providers shall provide weekly prices, based on the core services described in this specification, and identified in the pricing schedule document (Appendix B - Pricing Schedule) along with prices for additional services, commonly required

Description of risks to contract performance

Other external factors, outside of the control of the Council and Provider on a global, national, regional or local level which would require changes to the way in which the contract is performed or the costs associated with delivering services.

Whilst the categories outlined in this specification are registered children's homes and are categorised in terms of size of home, a known unknown is that there is also the growing requirement for OFSTED registered residential family centres. This may therefore result in procurement of such provisions within this framework at a future date

Justification for not publishing a preliminary market engagement notice

Market engagement event took place in early April 2025. Initially the fostering and residential placements were forming into one framework, however upon engagement it was identified that these placement areas should be separate frameworks.
