Notice identifier: 2025/S 000-048812

Procurement identifier (OCID): ocds-h6vhtk-05880e

Published 14 August 2025, 2:42pm

## Scope

## Reference

Prj\_7030

## Description

Services Required?

The Minor Civils Framework will support 3 main areas of the business for planned and reactive requirements for Water and Wastewater operations (across all regions): ?

Roads, access, footpaths, drainage & Fencing repairs?

Buildings, chambers, cabling, pipework, ducting?

Tanks?

In principle, the services required will not be major capital investments but minor repairs or making good work. involve repairs, replacements, or alterations to existing structures and infrastructure, and often don't require extensive planning or resources.?

---

## **Framework**

### **Maximum number of suppliers**

4

### **Maximum percentage fee charged to suppliers**

0%

### **Further information about fees**

N/A

### **Framework operation description**

The tenders will be priced based on the three scenarios provided and an underpinning rate card. ?

SW will provide an estimated level of effort for each scenario against which tenderers will submit their rates which combined will generate a price for labour.?

SW will also provide an estimated material cost against which tenderers will provide a percentage mark up to calculate the price. ?

The price for labour plus the materials price for each of the three scenarios will be totalled to give one total price per tender. ?

## **Award method when using the framework**

With competition

## **Contracting authorities that may use the framework**

how to register on the CDP

### **Tenders may be submitted electronically**

Yes

### **Languages that may be used for submission**

English

### **Award decision date (estimated)**

18 December 2025

---

### **Award criteria**

Name	Description	Type
Technical 50%	The technical evaluation will be based on 9 technical questions covering capability, accreditations, industry knowledge, values and design capabilities. ? This will be followed by presentations based on three scenarios: ? Chamber construction? New access road? New pipe? These scenarios are indicative of the works required to support SW. ? Tenderers will be required to describe their approach to each scenario with guidance provided as to what SW will be looking for including project management, H&S, knowledge of applicable legislation etc. ?	Quality
Commercial 50%	The technical score and price will be combined using a price to quality ratio. Using the calculation of: ? Technical Score/Price = Price to Quality Ratio	Price

## Weighting description

Technical 50% and Commercial 50%
