II.2.4) Description of the procurement

The scope of this multi lot framework agreement includes the full suite of digital technical support services for clinical systems, including services pertaining to both proprietary solutions and opensource solutions.

The framework covers all standalone, clinical system focused digital support, required from public sector contracting authorities.

The type of Services included within remit of the framework are as follows:

- Technical architecture, development, integration;
- Specialist programme delivery,
- PMO and planning;
- Digital communications;
- Financial management;
- Specialist technology consultancy;
- Digital strategy and business case support;
- Information Governance;
- Clinical safety.

Suppliers have significant experience in the provision of professional services pertaining to proprietary (i.e. closed-source) clinical software solutions for use in healthcare environments. These professional services relate to the identification and/or requirements design and/or deployment and implementation of proprietary clinical systems/software solutions.

Suppliers within the framework have directly relevant and hands-on experience of working with the types of technologies and platforms found within clinical environments, experience of working within the complex, digital health and care landscape. Examples of which include:

- analysis, architecture, and design services;
- clinical informatics and data modelling expertise;
- software development services;
- assurance, testing, and clinical safety services;
- technical custodian services;
- deployment of new publisher and subscriber feeds;
- population health and SQL services;

- project delivery services;
- business analyst and technical specification services.

The framework agreement allows for both further competition and direct award to all awarded suppliers.

NHS London Procurement Partnership received approval from NHSE CCF, the Cabinet Office's Central Digital and Data Team and Commercial Team to establish this framework.
