#### **II.1.4) Short description**

The provision of low voltage (LV) shrouding materials to support SSEN's Overhead Line (OHL) network safety, reliability, and operational resilience. The solution will enhance public and workforce safety by insulating exposed conductors, reduce fault rates caused by environmental interference, and support efficient defect management and maintenance activities. LV shrouding contributes to improved network performance, reduced outage risks, and compliance with safety standards, ultimately supporting reductions in Customer Interruptions (CI) and Customer Minutes Lost (CML) across the LV network.
