Applicable trade agreements

- Government Procurement Agreement (GPA)

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Direct award justification

Single supplier - technical reasons

A SecurAcath is a single use engineered stabilisation device used to secure percutaneous catheters in position on the skin. The device provides continuous securement from catheter placement to removal, preventing catheter migration and reducing complications

such as infection and thrombosis. The SecurAcath device has exclusive rights and is patent protected and is available from one supplier only.
