Description

West Midlands Combined Authority (WMCA) is undertaking a significant Digital Transformation Programme. This encompasses a range of activities from refining the digital operating model and implementing foundational systems improvement (to ensure secure and compliant services) to introducing the skills and capabilities needed across the organisation for it to become truly digital by default.

WMCA wishes to secure a strategic partner to support and aid on this journey, to provide assurance for the roadmap, and to supplement people resources where required.

Through conducting this pre-market engagement, WMCA is seeking to gain a greater understanding of suppliers within this market who would be interested in responding to the upcoming release of WMCA's specification of requirements.

WMCA intend to circulate a questionnaire through Bravo (WMCA e-tendering portal), allowing you to provide more information about your interest and comment on the proposed approach.
