### Scope

#### Reference

C-CA25008

### **Description**

Ports of Jersey is looking to encapsulated impacted materials from the airport site. This will involve the transport of the material from the construction site, the formation of a testing area with individual bays and the creation of storage cells formed from geotechnical clay membranes creating a series of bunds.

All surplus ground/overage should be allocated to the airport bunds, which requires obtaining planning permission from the Government of Jersey for construction. Planning has been submitted and is due to be decided in late Q4 2025. Planning Ref is sub/15917.
