Tender

PFAS Developing Targets & Quality Standards

ENVIRONMENT AGENCY

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-049948

Procurement identifier (OCID): ocds-h6vhtk-056756 ([view related notices](#))

Published 19 August 2025, 4:38pm

Scope

Description

This project, to be completed by February 2026, will review the readily available hazard data for several specific PFAS, required to derive thresholds for human health via consumption of fish and for the protection of aquatic life. Where sufficient relevant and reliable data is available for each of the individual PFAS considered, this will be used to derive interim thresholds for these specific PFAS using the approach outlined in the EQS (Environmental Quality Standards) guidance (EC, 2018 - Guidance No 27 - Deriving Environmental Quality Standards - version 2018.pdf). In the absence of an EQS for these substances, these interim thresholds will be used by the Environment Agency (EA) to contextualise the concentrations of these substances detected from surface water monitoring and present in discharges to water environment to help understand the potential risk associated with the concentrations detected.

Total value (estimated)

- £50,000 excluding VAT
- £60,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 29 September 2025 to 27 February 2026
- 4 months, 29 days

Main procurement category

Services

CPV classifications

- 73110000 - Research services

Contract locations

- UK - United Kingdom

Participation

Conditions of participation
