Lot constraints

Maximum number of lots a supplier can be awarded: 1

Description of how multiple lots may be awarded:

Bidders can apply for Lot 1 or Lot 2 but no single company can be appointed for both lots, nor can a winning consultancy be a major sub-consultant for the other lot, or major sub-consultant on both lots. If a consultancy is successful in passing the first stage of the tender (the COP) for both lots (either as lead or sub-consultant) they will be asked to withdraw from one.

The top 3 ranked bidders from the conditions of participation will be down selected. However, the University requires that separate Consultants are down selected for Lot 1 and Lot 2.

In the event that a bidder bids for both lots and is the top scoring COP bidder in both lots, then in order to maintain separation, the bidder will be given the choice of which lot to proceed to ITT stage.

In the event that a bidder has to choose to withdraw from a lot, that lot will be awarded to the 4th place ranked bidder and so on.
