Description

NRS is undergoing a new period of transformation aligned to its 10-Year Strategy, with a strategic shift towards a programmatic model to accelerate delivery, improve efficiency, and enhance value creation.

NRS requires a Data Lead to conduct a peer review of the current EAM approach, with a focus on data strategy and alignment across related workstreams. An individual has been identified for this role, based on his extensive leadership experience within the NDA estate. He previously led on another team within the NDA Group and was instrumental in architecting the digital asset management programme currently being rolled out. He brings a unique blend of strategic insight and operational expertise, and his alignment with

the NDA's digital asset management strategy is well recognised.

Total value (estimated)

- £300,000 excluding VAT
- £360,000 including VAT

Above the relevant threshold

Main procurement category

Services

CPV classifications

- 79414000 - Human resources management consultancy services

Engagement

Engagement deadline

20 August 2025

The engagement was carried out before this notice was published.

Engagement process description

The strategy and preferred option for this procurement was to utilise CCS RM6288 Resource Augmentation service line with AMS. However, the final contract signatures for the NDA Group under RM6288 is still outstanding. Given this delay, we are now exploring a direct engagement to secure the services.

Participation

Particular suitability

Small and medium-sized enterprises (SME)

Submission

Publication date of tender notice (estimated)

1 September 2025
