Description

Systems and facilities are required to capture, produce and distribute the BBC's content within broadcast and media production facilities.

The BBC's current framework contracts for Media & Broadcast systems integration are due to expire at the end of August 2026. We are considering the options for a new framework agreement, which will commence September 2026.

The anticipation is to establish a framework agreement. However, this may be subject to change depending on future sourcing strategies, market engagement and final contract outcomes.
