Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Mobile Community Diagnostics Service

II.1.2) Main CPV code

- 33124110 - Diagnostic systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

There is a service requirement for a mobile community diagnostics service which delivers comprehensive mobile community diagnostics vehicle capable of supporting x-ray, ultrasounds and IVD as a single solution. The diagnostics equipment must be designed to fit into a conventional vehicle operated by one person (for LEZ and carbon zero applicability) and must be able to be deployed in the community, places of residence and care homes. Due to the nature turnaround times of reports must be within 1 hour for image/test acquisition.

It must have an all-in-one solution with connectivity with a native tele-diagnostics self-contained platform covering plain film and cross-sectional reporting and be interoperable with Board systems using HL7 standards for data exchange.

Any vendor must provide full end-to-end acceptance testing with the Health Board before go-live, including validation of equipment, workflows, and connectivity. Local engineering support must be available within 120 minutes of call-out and have an equipment contingency plan delivered within 24 hours should a fault be reported.

The Prior Information Notice is for the purpose of market engagement to initiate dialogue on the requirement listed above.

Interested Parties should note their interest on the Prior Information Notice prior to the deadline of September 2nd 2025. NHS Greater Glasgow & Clyde will then initiate dialogue with the interested parties.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKM81 - East Dunbartonshire, West Dunbartonshire and Helensburgh & Lomond
- UKM82 - Glasgow City

Main site or place of performance

The geographical region of NHS Greater Glasgow & Clyde

II.2.4) Description of the procurement

There is a service requirement for a mobile community diagnostics service which delivers comprehensive mobile community diagnostics vehicle capable of supporting x-ray, ultrasounds and IVD as a single solution. The diagnostics equipment must be designed to fit into a conventional vehicle operated by one person (for LEZ and carbon zero applicability) and must be able to be deployed in the community, places of residence and care homes. Due to the nature turnaround times of reports must be within 1 hour for image/test acquisition.

It must have an all-in-one solution with connectivity with a native tele-diagnostics self-contained platform covering plain film and cross-sectional reporting and be interoperable with Board systems using HL7 standards for data exchange.

Any vendor must provide full end-to-end acceptance testing with the Health Board before go-live, including validation of equipment, workflows, and connectivity. Local engineering support must be available within 120 minutes of call-out and have an equipment contingency plan delivered within 24 hours should a fault be reported.

II.2.14) Additional information

Interested Parties should note interest in the Prior Information Notice prior to the September 2nd 2025 deadline.

Dialogue will then be initiated by NHS Greater Glasgow & Clyde with the relevant parties noting interest.

II.3) Estimated date of publication of contract notice

5 January 2026
