Scope

Description

BANGKOK SIAM SQUARE REMEDIAL WORKS', is primarily focuses on upgrading the main electrical system and conducting a survey and rectification of the air conditioning system. The project, to be executed by a single supplier, also includes minor makegood works as required. The main objective is to address the prioritized issues identified in the premise's MEP (Mechanical, Electrical, and Plumbing) due diligence report, with a specific emphasis on electrical and mechanical work upgrades. By targeting these critical areas, the refurbishment aims to enhance the facility's overall performance, efficiency, and compliance with current standards. The single-supplier approach is expected to streamline project management and execution, fostering consistency and coordination throughout the upgrade process.
