Description

Dartford Borough Council is seeking suitably qualified and experienced property management partners to provide a range of services to manage non-residential assets (the Services). These assets are generally garage sites but the tender will not be restricted to garages as from time to time other non-residential assets may be added to the contract by agreement. All of Dartford Borough Council's assets are located within the council boundaries. However, as a framework tender, works beyond the council boundary may be added later with other similar public bodies.

Professional property management services are sought to take responsibility for the active management of non-residential assets (garages). These services will involve direct tenant interface, void management, rent setting, rent collection, dispute management and optimisation of cash income for the asset group. Furthermore Dartford Borough Council seek partners who can provide a comprehensive service to facilitate repairs and maintenance to the non-residential assets including taking repairs calls, diagnosing and

ordering repairs via the client or third party contractor through an electronic works ordering system. In addition, a capital works improvements programme will be delivered using the priced schedules; the value of such works may extend up to £500,000 over a number of years to support the target to increase performance of the garages.

Commercial tool

Establishes an open framework

A series of frameworks with substantially the same terms. Awarded suppliers are carried over and new suppliers can bid.
