Published 27 August 2025, 10:44am

## **Scope**

## **Reference**

SR2497099450

## **Description**

HMRC require a project management tool for tracking issues, bugs and tasks in software development and a collaborative workspace where teams can create, share and manage documentation and knowledge. These tools need to be able to integrate to allow teams to plan projects, track progress and maintain organised accessible information. The solutions need to be integrated to allow for transition between project tracking and documentation as well as being highly customisable to support complex workflows across software, business and IT teams. The system also needs to be compatible with a range of plugins that HMRC already utilise and requires robust permission controls to maintain the security of HMRC systems. HMRC are planning to consolidate multiple siloed software instances across CDIO, ECS, DPS, EIS, B&T/CDS and HMRC Digital into SaaS based platforms. This is focusing on the need to procure the following licenses for the Atlassian Jira/Confluence software. License requirement: Atlassian Enterprise Cloud, 9000 Users for Jira, Confluence Bundled with Rovo for 9000 Users Atlassian Guard Premium 9000 users, Jira Service Management Enterprise 300 Agents, Jira Product Discovery Premium

1000 Users.

## **Contract 1. ALM Platform- Atlassian SaaS Migration**

### **Supplier**

- Atlassian Pty. Ltd.

### **Contract value**

- £5,297,791 excluding VAT
- £6,357,349.20 including VAT

Above the relevant threshold

### **Earliest date the contract will be signed**

22 September 2025

### **Contract dates (estimated)**

- 22 September 2025 to 21 September 2028
- 3 years

## **Main procurement category**

Services

## **CPV classifications**

- 72000000 - IT services: consulting, software development, Internet and support

## **Contract locations**

- UK - United Kingdom

---

## **Other information**

### **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

### **Procedure type**

Direct award

### **Direct award justification**

- Single supplier - intellectual property or exclusive rights

- Single supplier - technical reasons
- Single supplier - intellectual property or exclusive rights
- Single supplier - technical reasons

Atlassian Jira/Confluence is a key piece of software for the organisation as it is used for both tracking tasks and managing agile projects as well as enabling teams to collaborate and document work on said projects in a shared organised space. Moving to an alternative solution would cause significant disruption and risk to the authority. This would create disproportionate technical and resource challenges that would impact business operations and not demonstrate commercial value or provide the most economically advantageous outcome
