Reference

LSL/OLG/0032

Description

In April 2015, the MOD signed a thirteen year contract with Leidos Europe Ltd to provide the procurement and inventory management of commodity items (as well as the storage and distribution services), that were historically provided in-house by the Logistic Commodities and Services Operating Centre.

Leidos, working with the MOD, will transform the way these services are delivered to ensure requirements continue to be met whilst providing best value for money for the department. The organisation delivering these services is known as Team Leidos.

The General Supplies team which forms part of Leidos Supply Ltd. is considering the potential requirement for the supply of Oils, Lubricants, and Associated Products on behalf of the UK MOD consisting of 1 lot which will cover (but will not be limited to) Engine oils, Gear oils, Hydraulic fluids, Compressor oils, Anti-corrosion oils, De-icing agents,

Water treatment chemicals. This range includes products that are used on land, sea, and air platforms, and therefore the required standards/specifications, as applicable, must be met.

The framework length should not exceed 4 years and is anticipated to commence 2027.

The value of this framework is estimated to be between £27,100,000-£67,700,000.

It is the aim of this Preliminary Market Engagement Notice (PMEN) to encourage companies, suppliers, or manufacturers to make us aware and provide as much information as they are comfortable with, to help decide the future strategy for the range.

Please note that as a framework agreement there is no guarantee of business.

Team Leidos wishes to generate interest, information and views with other companies to understand the current market innovation and gain useful intelligence that can help our requirement.

To request the PMEN documents please contact:

Name and Email address: Harry Gregor - Harry.gregor100@teamleidos.mod.uk

In the email request the documents related the Supply of Oils, Lubricants, and Associated Products.
