# Changes to notice

This notice has been edited. The <u>previous version</u> is still available.

Tender submission deadline extended to 22 September 2025 to allow bidders time to review TUPE ELI information.

Deadline for clarification questions also extended to 12 September 2025.

# Scope

#### Reference

DN780803

#### **Description**

The Council is seeking to procure a contractor to deliver a Fully Inclusive Risk & Reward Contract (FIRRC) for the servicing, maintenance, responsive repairs, and upgrade works of gas, LPG, and solid fuel heating and hot water systems across its housing stock.

The contract will cover all associated components, including boilers, radiators, flues, cylinders, pipework, controls, and electrical elements, with all works delivered under a fixed-price model. The successful contractor will be responsible for ensuring full operational compliance, delivering first-time fixes where possible, and providing temporary heating when required.

The service includes resident liaison, void property coverage, energy efficiency advice, and support with compliance and safety inspections. Upgrade works may also be instructed at the Employer's discretion and must be delivered from design through to completion.

## Total value (estimated)

- £6,000,000 excluding VAT
- £7,200,000 including VAT

Above the relevant threshold

## **Contract dates (estimated)**

- 1 April 2026 to 31 March 2029
- Possible extension to 31 March 2031
- 5 years

Description of possible extension:

Extension option of up to 24 months dependent on the satisfactory performance of the contractor and presuming no significant changes to FHDC's requirements

	Please describe your approach to proactively managing the domestic gas contract at a local level to ensure delivery of a planned service and maintenance programme, meet required response times, and effectively manage any associated or follow-on work identified during service, breakdown, or call-out visits. As part of the contract requirements, the successful contractor is expected to operate a fully functional local office within 35 miles of the Civic Centre, CT20 2QY, providing welfare and meeting facilities as well as a reliable internet and communication infrastructure. In your response, please confirm whether you: • Already have an established office within this range, or • Propose establishing a new office to meet this	Quality	Weighting 30% 25%
	new office to meet this requirement (include		
	timeframe and location		
	if applicable). For FHDC boundary map		
	please see link below: Public Elections Your		

response should also include the following: • An organogram clearly showing the proposed contract management structure, including roles, reporting lines, qualifications, and relevant accreditations of key personnel assigned to this contract. • A clear explanation of how you will ensure sufficient staffing and resource capacity from day one and throughout the contract term to maintain service continuity, efficiency and customer satisfaction. • A detailed explanation of how you will achieve and maintain 100% LGSR compliance and continuity throughout the contract, including the processes in place for difficult to access or failed access. • Demonstrate how you will effectively manage the FHDC CAP process • A detailed explanation of your process for repairs callouts; from point of call to completing and closing down a repair order. Include an illustrative process map (not included in the wordcount) and a winter readiness plan

(not in word count) for dealing with addition breakdown demand during the colder months. • Details of how you will meet the specified response times for callouts and emergency attendance, including how out-ofhours cover will be managed; · Your approach to the day-today supervision and management of engineers, including methods for monitoring service delivery, ensuring compliance with the Employer's Health and Safety expectations, and supporting staff on-site. Explain your processes for ensuring high quality workmanship, such as adhering to industry quality standards and regular quality assurance checks. • Show how you will efficiently manage the programme, while ensuring minimal disruption and effective communication with vulnerable residents (e.g. elderly, disabled, or those with language barriers), including appointment scheduling and tenant engagement

Name	Description	Туре	Weighting
Contract Performance in line with agreed KPI's	Please describe your approach to monitoring, managing, and reporting performance standards for the delivery of this domestic gas contract, with specific reference to the sample Key Performance Indicators (KPIs) listed below (Please note full KPI list set out in Appendix G). Your response should explain: • The systems and processes you will use to track performance against each KPI; • How you will present performance data to the Employer (including format, frequency, and reporting channels); • The preventative measures you will implement to ensure targets are consistently achieved. • The corrective actions you will take where performance falls below the agreed threshold. • How your performance management approach will ensure continuous improvement and client satisfaction throughout the contract term. You must demonstrate how you will meet or exceed the following [table referencing KPIs from Appendix G]	Quality	20%

Name	Description	Туре	Weighting
Previous experience	Please provide a detailed case study demonstrating your organisation's experience - and that of key personnel - in delivering a domestic gas contract for the planned maintenance, responsive repairs, emergency callouts, and statutory periodic testing of gas and LPG heating and hot water in a residential or social housing environment. Your case study should reflect experience managing contracts involving occupied properties, including vulnerable residents (e.g. elderly, disabled, or non-English speakers), and adherence to health and safety regulations, including Gas Safety (Installation & Use) Regulations Your response should include the following: • A description of the scope of services, including planned maintenance intervals, emergency response provision, and any statutory inspections or testing undertaken. • The estimated annual contract value. • The number of assets		15%

covered, and the range of site locations. • Your approach to managing follow-on remedial actions, repeat callouts, and unsafe equipment. • How the example contract compares to the requirements and conditions outlined in Folkestone & Hythe **District Council's** specification (e.g. appointment scheduling, resident communication, CRBchecked operatives, spare part sourcing, and reporting protocols); • Give examples of where your organisation has improved service delivery, value for money, or tenant satisfaction in the case study contract; and • How the experience and qualifications of your personnel, including NVQ-level training and fault diagnosis expertise, will be applied to ensure high standards of service delivery under this contract. • Using your experience from similar contracts detail your approach to transitioning from the incumbent provider and how your organisation would ensure a smooth

Carbon reduction	F&HDC has made a climate pledge and aims to become carbor neutral by 2030. Details on the action the Customer is taking can be found at folkestone-hythe.gov.u k/climatechange. In line with this commitment, the Council expects suppliers to adopt environmentally sustainable and responsible practices in the delivery of domestic gas services. Explain how you will mitigate or eliminate the carbon impact of activities carried out under this domestic gas contract. This includes both day-to-day operations and strategic approaches over the course of the contract. Please have reference to: A. Environmental Sustainability? Energy Efficiency - outline how you will reduce energy use during service delivery (e.g. use of low-emission vehicles, route optimisation, energy-efficient equipment/tools).		5%

Waste Reduction -Describe how you will minimise waste generation and promote reuse/recycling of parts and packaging during maintenance, repairs, and component replacements. B. Operational Sustainability? Sustainable Project Management -Describe how you will integrate sustainable practices into the management of this contract, including any procedures or systems in place to ensure environmental, social, and economic considerations are embedded in your service delivery. This can include action your organisation is already taking or plans to implement during the initial period of the contract. Your answer should include how you will monitor and measure your environmental performance against these commitments and how this information will be reported to the Employer as part of ongoing contract performance reviews

social value	F&HDC's Corporate Plan "Creating Tomorrow Together" sets out the council's guiding principles and service ambitions. The Corporate Plan can be viewed at folkestone-hy the.gov.uk/creatingtom orrowtogether. As part of this domestic gas Contract, the Council is seeking to partner and work collaboratively with contractors who can deliver measurable social value through the life of the contract. This can include action your organisation is already taking or plans to implement during the initial period of the contract. For example, your offer might include: • A resource commitment- annual supply of staff time to support local events or initiatives within the community (e.g. Clean up days, Council safety awareness events) • Equipment Commitment - Donation or loan of tools, equipment, or materials to support Council-run community events or housing initiatives. • A Training & Apprenticeship Opportunities -Offering placements, skills development, or		5%
