CM19 - T0536

Description

Trinity House are running this procurement to create a framework for the supply of marine lanterns, with a clause to allow the Northern Lighthouse Board to utilise the framework agreement, and to participate in evaluation. The two organisations use lanterns of various colours, sizes and ranges across various modes of Aids to Navigation (AtoNs). The units must meet IALA standards for chromaticity regions for all required colours. A link to the IALA website (below), can be used to indicate our potential requirements. The framework will last for 3 years with an optional 1 x 12 month extension available.
