Scope

Description

Morningside school raised health and safety concerns about the windows at the school relating to the opening mechanisms which were faulty and insufficient to deal with the weight of the windows.

A feasibility study carried out at the school identified that the uPVC windows and doors at the school have come to the end of their useful life, as well as general instability of the units.

This procurement will be sourcing for a suitable contractor to deliver works to remove and replace the windows and doors at Morningside Primary School.

This is not part of an overarching programme
