Scope

Description

This Preliminary Market Engagement Notice (PMEN) is published to advertise a preliminary market engagement being conducted by the East London Waste Authority (ELWA). ELWA wishes to engage with market operators regarding a new contract opportunity for the treatment of dry recycling materials.

ELWA is responsible for the disposal of the Local Authority Collected Waste (LACW) collected by (or on behalf of) the London Boroughs of Barking and Dagenham, Havering, Newham and Redbridge (the Constituent Councils) and to arrange for places to be provided at which persons resident in its area may deposit their household waste and for the disposal of waste so deposited. ELWA is also responsible for the disposal and recycling of commercial waste collected by the Constituent Councils.

These services are currently delivered via an Integrated Waste Management Services Contract (IWMS Contract), which was entered into in December 2002 with ELWA Ltd (the IWMS Contractor) and is operated by Biffa Treatment Services (the IWMS Operator). The

IWMS Contract includes infrastructure for mechanical biological treatment, waste transfer, and Reuse and Recycling Centres (RRCs) for use by the general public. The IWMS Operator also has a number of sub-contractors for services, including the provision of material recovery facilities for dry mixed recycling, treatment of garden waste, offtake of materials, transfer and RRC facilities. The IWMS Contract expires in December 2027. Further details on ELWA and the services it provides can be found at <https://eastlondonwaste.gov.uk/>.

In 2022, ELWA and the Constituent Councils produced a Joint Strategy for East London's Resources and Waste (Joint Strategy) for the period from 2027 to 2057. Further details on the Joint Strategy can be found at <https://eastlondonwaste.gov.uk/jointstrategy/>.

Following the ratification of the Joint Strategy, also in 2022, ELWA set up the Procurement and Contract Expiry Programme (PACE Programme) to manage the complex work associated with:

- Contract Expiry and Transition: the activities required to manage the expiry and demobilisation of the IWMS Contract;
- Future Services Delivery: the activities required to ensure that new services arrangements are in place at the expiry of the IWMS Contract so that services continue to be delivered without interruption.

The Outline Business Case (OBC), part of the Future Services Delivery component of the PACE Programme, was then produced to determine the preferred service delivery model for the new services at the expiry of the IWMS Contract.

The OBC concluded that the preferred approach to procuring the services to replace the IWMS Contract would be via a disaggregated service delivery model with new contracts for the following waste services: Residual Waste Disposal; Waste Reception, Haulage and Reuse and Recycling Centres; Treatment of Garden Waste; Reprocessing of Dry Recycling; and Treatment of Food Waste.

The OBC was formally approved in September 2023. [Agenda-Item-04 September 2023.pdf \(eastlondonwaste.gov.uk\)](#).

To inform the development of these contracts, ELWA has been carrying out market engagement exercises.

The procurement for the Residual Waste Contract has recently been completed and the procurement of the Reception, Haulage, Reuse and Recycling Centres Contract (RHRRRC Contract) is currently underway.

ELWA is now seeking to engage with market operators who may wish to participate in the

procurement of the Dry Recycling Contract (DRC) and invites you to confirm that your organisation wishes to participate in a meeting with ELWA and its advisers.

ELWA has also published a Market Operator Briefing Note on the Bravo Portal (<https://lbbd.bravosolution.co.uk/>), alongside this PMEN, which provides further information regarding this preliminary market engagement exercise, including the process that market operators need to follow to participate in this exercise, the key topics that ELWA would like to discuss with market operators during such meetings and other relevant information.

Total value (estimated)

- £52,668,000 excluding VAT
- £63,201,600 including VAT

Above the relevant threshold

Contract dates (estimated)

- 23 December 2027 to 31 March 2033
- Possible extension to 31 March 2038
- 10 years, 3 months, 9 days

Contract locations

- UKI4 - Inner London - East
 - UKI5 - Outer London - East and North East
-

Engagement

Engagement deadline

12 September 2025

Engagement process description

The Market Operator Briefing Note published on the Bravo Portal (<https://lbbd.bravosolution.co.uk/>) contains detailed instructions for participating in this preliminary market engagement exercise. Interested organisations are strongly recommended to review this document. However, in summary:

The date for submission of an expression of interest to attend a meeting with ELWA officers and its advisers as part of this preliminary market engagement is 12 September 2025. Such requests should be submitted via <https://lbbd.bravosolution.co.uk/web/login.shtml>

Following receipt of expressions of interest, ELWA will arrange meetings with respondents to discuss key topics. These meetings are expected to take place from 25 September 2025 to early October 2025.

By 19 September 2025, in advance of the meetings, market operators are required to submit a written statement or presentation to ELWA in response to relevant questions which are set out in the Market Operator Briefing Note, as well as identify any further discussion topics.

Market operators may also submit any clarification questions, enquiries, requests for clarification or further information regarding the conduct of the preliminary market engagement to ELWA.

Though encouraged, engagement in this preliminary market engagement exercise is not a requirement for participation in the forthcoming procurement, which shall be formally commenced through publication of a Tender Notice.

Submission

Publication date of tender notice (estimated)

7 April 2026
