Tender

30 by 30 conservation/ecological assessment & plan

Pembrokeshire Coast National Park Authority

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-053238

Procurement identifier (OCID): ocds-h6vhtk-059267 ([view related notices](#))

Published 2 September 2025, 3:28pm

Scope

Description

This tender is offered as part of the Naturally Connected Project and is funded as part of the

Nature Networks programme, supported by funding from the Welsh Government and The National Lottery

Heritage Fund.

We wish to invite a tender to provide:

Objective 1: 30 by 30 Land Assessment Framework for the Terrestrial Environment

A proposal outlining a clear, step-by-step system for the nomination, initial screening, and full

evaluation of land against Welsh and IUCN definitions contributing to the 30x30 conservation target

within Pembrokeshire Coast National Park.

Objective 2: Mapped Audit & Progress Narrative

A GIS-based audit of land currently contributing and potentially contributing (“candidate” land) to

the 30 by 30 target. Include a narrative report that summarises current progress, baseline coverage, and strategic gaps. Apply techniques to resolve overlaps and duplication.

Objective 3: Scoping Additional Candidate Land

Identify and evaluate additional land parcels that may be targeted for inclusion toward the 30x30

goal using a dual approach considering both land suitability and local opportunity. Provide a

mapped output of candidate sites along with a narrative justification for priority sites to target

based on biodiversity value, ecological connectivity, and land-use feasibility.

Objective 4: Strategic Action Plan

Develop a detailed action plan guiding the National Park Authority on actions required to meet the

30x30 target. Include short-, medium-, and long-term milestones and recommendations for monitoring,

reporting, and governance.

Objective 5: Ecological Network Assessment

Assess the extent to which implementation of the 30x30 action plan will support the development of

Resilient Ecological Networks (RENs). Provide a narrative on the landscape-

scale benefits and gaps and suggest refinements to maximise ecological resilience.

Total value (estimated)

- £30,000 excluding VAT
- £36,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 13 October 2025 to 31 March 2026
- 5 months, 19 days

Main procurement category

Services

CPV classifications

- 90711000 - Environmental impact assessment other than for construction
- 90712400 - Natural resources management or conservation strategy planning services
- 90714100 - Environmental information systems
- 90721100 - Landscape protection services
